About ISHM

Quizzes going once - going twice

ISHM is again offering COC quizzes. There will be 10 quizzes in 2018. Each quiz, when successfully completed, will be worth 0.2 COC points. Two COC points that you can earn from your computer in 2018 - all this for a mere $50.00. Interested? Contact Mikki, 928-344-5221 Opt 3 or mikki@ishm.org.

Without sufficient subscribers by March 1 ISHM will have to cancel the program.

General EHS Issues

Pesky Drone
Drones buzzing your workplace or your backyard while enjoying a day with family and friends? You probably should think it through before you shoot it out of the sky. There can be ramifications!

**Drowsy Driving**

A recent article in ISHN indicates that drowsy driving is a much larger problem than previously thought. Whether you are concerned about company drivers or family and friends (hopefully both) you should consider the issue.

**ISO 45001**

The release date is now March of 2018. There are some major changes that need to be considered. This document replaces the OHSAS 18001 that has long been in use.

**Emergencies**

You train for them at work - what about at home with your family. A recent TV show highlighted some issues of lack of being prepared.

**ASK THE LAWYER - Darren Hunter**
Question: What is the impact of the appellate court's decision regarding OSHA's Silica Rule?

Read the answer here.
